

Assignment 1: Structured Reading Page

Due: 5:00 pm, Friday 26 March 2027

Weight: 15% of the final course mark

Overview

Design and build a single-page reading experience for a real or imagined article, guide or event. Use semantic HTML, logical heading hierarchy, meaningful links and images with useful alternative text.

What you submit

Preview URL, source files, content outline and a 200-word reflection on structure and audience.

Marking criteria

Criterion
Content structure and semantic HTML
Reading hierarchy and meaningful navigation
Text alternatives and source record
Reflection on audience

Submission check

Test the submitted URL and source files before the due time. Record all external images, typefaces, code and media with their source and licence or permission.
