

Assignment 4: Interactive Publishing Site

Due: 12:00 pm, Friday 28 May 2027

Weight: 40% of the final course mark

Overview

Create a small multi-page site that helps an audience understand a topic, collection or story. Use information architecture, shared navigation, a visual system and evidence of user testing.

What you submit

Preview URL, source files and a 4-5 page process dossier with information map, design system, test evidence, change log and 500-word reflection.

Marking criteria

Criterion
Purpose, audience and information architecture
Visual system and responsive implementation
Accessibility, interaction and technical care
Testing, revision and documentation

Submission check

Test the submitted URL and source files before the due time. Record all external images, typefaces, code and media with their source and licence or permission.
